Overall Length:

15.000 inches

Overall Height:

7.000 inches

Overall Width:

11.625 inches

Major Components:

Bracket assembly 1; connector, receptacle, electrical 2; cover assembly 1, plate, identification 1; rectifier 6; relay, armature 3; support assembly 1; terminal, turret 1; transformer, power 3; wiring harness 1

Mounting Configuration:

Bracket mtd

Fsc Application Data:

Guided missile battery control central

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
