Overall Length:

19.000 inches

Overall Height:

12.250 inches

Overall Width:

14.750 inches

Special Features:

Wregulations 5-32 volts range porm1/2 pct 2-5 volt and 32-36 volt range porm 2 pct; ripple 1 pct rms maximum /a/36 volts and full load /increases to 2 pct at 2 volts and full load; vernier voltage control; unit incorporates remote sensing

Fsc Application Data:

Provides power for testing and preflighting various electronic equipments used in aircraft and drones

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
