Overall Length:

8.870 inches

Overall Height:

5.680 inches

Overall Width:

5.690 inches

Major Components:

Module chassis 1, heatsink assembly 1, circuit card assembly 1, capacitor 1, transformer 1, resistor 1, fuse 1, electrical receptacle connector 1

Mounting Configuration:

2 90 degrees angle brackets attached to chassis by screws through two 0.200 in. Diameter holes each bracket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
