Overall Length:

5.500 inches

Overall Height:

1.023 inches

Overall Width:

3.000 inches

Electrical Power Source Relationship:

Operating

Output Voltage Rating:

7.5 dc volts 1st power output

Rectification Method:

Full wave voltage doubler

Features Provided:

Filter

Fsc Application Data:

Test set electronic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A39900
