Overall Length:

7.880 inches

Overall Height:

1.450 inches

Overall Width:

3.900 inches

Operating Ambient Temperature Range:

-70.0/+150.0 degrees fahrenheit

Special Features:

Output short circuit protection with automatic restoration upon short removal and reapplication of power provided with an airpax ap 12-3917-3. Also, high temperature thermosta (klixon type or equivalent) contained within powersupply at a sensitive high temperature location

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
