Flectrical	Power	Source	Relationship:
Liecui icai	LOME	Source	iverations inp.

Operating

## **Operating Ambient Tempurature Range:**

-0.1/+70.0 degrees celsius

## **Special Features:**

All output voltages are plus or minus 5 percent; positive and negative taps are provided for voltages; neg. 5vdc provides 100 milliamps, neg. 12vdc provides 300 milliamps; input voltage can be changed to 230vac by changing transformer taps

Shelf Life:

N/a

**Unit Of Measure:** 

--

**Demilitarization:** 

No
