Electrical Power Source Relationship:

Operating

Operating Ambient Temperature Range:

-0.1/+70.0 degrees celsius

Special Features:

All output voltages are plus or minus 5 percent; positive and negative taps are provided for voltages; neg. 5vdc provides 100 milliamps, neg. 12vdc provides 300 milliamps; input voltage can be changed to 230vac by changing transformer taps

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
