Operating Temperature Range:

+0.0/+70.0 degrees celsius

Storage Temperature Range:

-55.0/+85.0 degrees celsius

Maximum Voltage Rating In Volts:

110.0 ac or 132.0 ac or 242.0 ac or 264.0 ac

End Application:

Peacekeeper mgcs

Current Rating In Amps:

0.5

Terminal Location:

Front

Terminal Type And Quantity:

3 connector, receptacle

Maximumlength:

19.000 inches

Maximumwidth:

19.000 inches

Maximumheight:

5.250 inches

Phase:

Single

Special Features:

3 each 488dap mounted in a rack..Ac input: 216-264vac, or 198-242vac, or 108-132vac or 90-110vac, current 0.5amps at 117vac. Freq 49-440 hz. Output0.0-9.99vdc (in 10 millivolt increments) or 0.0-0.999vdc (in 1 millivolts increments). Output current 15 milliamp source or 1.5 milliamp sink. Output connections conform to ieee standard 488/1978

Frequency In Hertz:

49.0 or 440.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
