| 0.05 single power output                                |
|---|
| Input Voltage Rating:                                   |
| 28.0 dc pounds per hour wet single operating power rqmt |
| Output Voltage Rating:                                  |
| 12000.0 dc volts single power output                    |
| Output Control Quantity:                                |
| 2 single power output                                   |
| Output Control Type:                                    |
| Voltage adjustment single power output                  |
| Features Provided:                                      |
| Remote control and potentiometer                        |
| Output Current Rating:                                  |
| 500.0 dc microamperes single power output               |
| Ripple Voltage At Full Load:                            |
| 18.0 volts peak single power output                     |
| Output Control Location:                                |
| Front panel single power output                         |
| Output Connection Quantity:                             |
| 1 single power output                                   |
| Output Connection Type:                                 |
| Connector, receptacle coaxial single power output       |
| Input Current Rating:                                   |
| 550.0 dc milliamperes single operating power rqmt       |
| Input Connection Type:                                  |
| Binding post single operating power rqmt                |
| Input Connection Quantity:                              |
| 4 single operating power rqmt                           |
| Shelf Life:   |
| N/a   |
|   |
