Overall Length:

12.000 inches

Overall Height:

2.250 inches

Overall Width:

8.750 inches

Major Components:

Heater 1; cathode circuit 1; collector protection circuit 1; transformer 1; rectifier 1; filter circuit 1; connector 5

End Application:

5840-01-158-2742, unmanned threat emitter, an/tpt-4, band 5 transmitter

Usage Design:

High voltage assembly

Functional Description:

Potted assembly used to provide 6.0 to 6.6 vdc to tube and 10.9 to 11.3 kvdc for cathode to helix voltage of tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
