Overall Length:

9.500 inches

Overall Height:

7.500 inches

Overall Width:

4.875 inches

End Application:

P-3 acft

Electrical Power Source Relationship:

Operating

Installation Design:

Rack

Input Voltage Rating:

105.0 ac pounds per hour dry single operating power rqmt and 132.0 ac pounds per hour with retaining chain single operating power rqmt

Input Frequency Rating:

380.0 hertz single operating power rqmt and 420.0 hertz single operating power rqmt

Operating Ambient Temperature Range:

-20.0/+71.0 degrees celsius

Ventilation Design Type:

Ambient air

Fsc Application Data:

Test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
