Operating Temperature Range:

+0.0/+40.0 degrees celsius

Storage Temperature Range:

-25.0/+85.5 degrees celsius

Maximum Voltage Rating In Volts:

130.0 ac or 260.0 ac

End Application:

Lantern se

Terminal Location:

Back

Power Source:

External

Features Provided:

Power light

Maximumlength:

17.000 inches

Maximumwidth:

16.562 inches

Maximumheight:

1.719 inches

Phase:

Single

Special Features:

Digital inputs: gpib input/outputconnections are made at rear of unit and conform to ieee-488/1978

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
