Overall Length:

3.150 inches

Overall Height:

0.750 inches

Overall Width:

2.170 inches

End Application:

Avenger class mcm

Electrical Power Source Relationship:

Operating

Input Voltage Rating:

85.0 ac pounds per hour dry single operating power rqmt and 132.0 ac pounds per hour with retaining chain single operating power rqmt

Output Voltage Rating:

5.1 dc volts single power output

Input Frequency Rating:

50.0 hertz single operating power rqmt and 60.0 hertz single operating power rqmt

Output Wattage Rating:

10.0 watts single power output

Output Current Rating:

2.0 dc volt-ampere single power output

Output Connection Quantity:

1 single power output

Special Features:

Plastic encased

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
