End Application:

An/alr-56 arwr

Input Voltage Rating:

135.0 dc pounds per hour wet 1st alternate operating power rqmt15.0 dc pounds per hour wet 2nd alternate operating power rqmt

Output Voltage Rating:

-100.0 dc volts 1st power output-15.2 dc volts 2nd power output-6.0 dc volts 3rd power output-5.2 dc volts 4th power output5.0 dc volts
5th power output6.0 dc volts 6th power output15.0 dc volts 7th power output28.0 dc volts 8th power output48.0 dc volts 9th power output

Criticality Code Justification:

Feat

Input Connection Type:

Connector, plug 1st alternate operating power rqmtconnector, plug 2nd alternate operating power rqmt

Input Connection Quantity:

1 1st alternate operating power rqmt1 2nd alternate operating power rqmt

Ventilation Design Type:

Integral blower

Special Features:

Electrostatic sensitive device; contains overload protection and powersupply operating life 20, 000 hours

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A39900
