Overall Length:

7.250 inches

Overall Height:

3.250 inches

Overall Width:

5.000 inches

Battery Quantity:

2

End Application:

Project mtds

Output Voltage Rating:

12.0 dc volts single power output

Battery Feature And Type:

Rechargeable mercury

Battery Location:

Internal

Special Features:

Six volts 1.0 ampere-hour batteries; battery substitution cord appx two feet; internal switch to modified power 115 to 230 volts; to be used with araantennas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
