Major Components:

Plug-in, programmer 1, with test connector 1

End Application:

Used on: 6130013505478; nha-6130013677136; f-15 ais, age, effect: 1-00up

Special Features:

Programming range 0-30volts; power120 va; current 4.4 amps max.Resolution0.01a; frequency 45hz to 5 khz; the a/cpower supply is accomplished via an ieee-488 gbip bus

Precious Material:

Rhodium

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
