Overall Length:

19.750 inches

Overall Height:

7.000 inches

Overall Width:

17.000 inches

End Application:

Multi-purpose

Input Voltage Rating:

100.0 ac pounds per hour dry 1st alternate operating power rqmt and 120.0 ac pounds per hour with retaining chain 1st alternate operating power rqmt

Output Voltage Rating:

120.0 ac volts multiple power outputs w/identical ratings

Operating Ambient Temperature Range:

-0.1/+40.0 degrees celsius

Features Provided:

Indicator light and on-off switch-indicator

Output Current Rating:

12.5 ac volt-ampere multiple power outputs w/identical ratings

Output Phase:

Single multiple power outputs w/identical ratings

Output Connection Quantity:

4 multiple power outputs w/identical ratings

Output Connection Type:

Receptacle, electrical multiple power outputs w/identical ratings

Input Current Rating:

11.0 ac amperes 2nd alternate operating power rqmt

Battery Feature And Type:

Rechargeable lead acid cell

Battery Location:

External

Ventilation Design Type:

Single fan

Battery Switching Time:

Instantaneous

Battery Power Supply Emergency Operating Time:

10.0

Special Features:

Between the ups 1500tr has input power cord/detachable with 5-15p plug; and four 5-15r output receptacles; battery p/n: b15tr sealed lead acid battery; a test/alarm disable switch located on the rear panel-test batteries during normal mode operation and disables the audible alarm when ups is running from battery reserve. Single power switch controls both input/output power to ups; and indicators (led) give ups status constantly; electrical power source relationship: operating; input phase: single; input frequency rating: 47.0 hz and 63.0 hz ; output frequency rating: 60.0 hz ; power supply output voltage rating: 120.0 volts multiple power outputs w/identical ratings

Shelf Life:

N/a

Demilitarization:

No

Fig:

A39900
