Major Components:

Printed wiring board q type 1, p/n: 260842; capacitors q type 71, diode qty 35, inductor q type 2, heat sink q type 6, resistors q type 114, transistors q type 11; rectifier, thyristor q type 2, p/n: 850347-0001; bus bar q type 6; transformer q type 5; microcircuit q type 15; and voltage regulator q type 10

End Application:

Ltacfire; next assembly nsn: 7025012769426

Criticality Code Justification:

Feat

Special Features:

Esd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
