Inclosure Material:

Plastic

Inclosure Type:

Case

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

12.0

Charging Current Rating In Amps:

0.050

Special Features:

Electronic device is designed to extend the life of lead-acid batteries using solar energy to continually clean and charge the batteries, w/washers attached

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31600
