Ac Voltage Rating:

110.0 volts

Charger Type:

Solid state semiconductor

Battery Type For Which Designed:

Nickel-cadmium

Special Features:

0battery charger for use with nicad type 7.5 volt rechargeable batteries only, light on indicates charger is ready to charge the battery, battery charging time should be between 12 to 14 hours, for use with romet speech-aid electronic larynx

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
