Overall Height:
540.0 millimeters
Overall Width:
390.0 millimeters
Electrical Power Source Relationship:
Self-contained Self-contained
Input Voltage Rating:
220.0 ac pounds per hour dry single operating power rqmt and 240.0 ac pounds per hour with retaining chain single operating power rqmt
Output Voltage Rating:
220.0 ac volts single power output and 240.0 ac volts single power output
Operating Ambient Tempurature Range:
+9.0/+140.0 degrees celsius
Rectification Method:
Inverter ac to dc
Product Name:
Uninterruptible power system
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A39900
