Output Voltage Rating:

12.0 dc pounds per hour wet 2nd power output

Special Features:

Tif backup battery is desired, connect battery to terminals: use "ac fail" terminal to report loss of ac, use "bat fail" terminal to report low or no battery condition; smp7pm is referenced as "power supply/charger" on data sheet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
