End Application:

Used to power a circuit board

Electrical Power Source Relationship:

Operating

Input Voltage Rating:

115.0 ac pounds per hour wet single operating power rqmt

Output Voltage Rating:

12.0 dc volts multiple power outputs w/identical ratings

Product Name:

Ac to dc dual output power supply

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
