**End Application:**

Used to power a circuit board

**Electrical Power Source Relationship:**

Operating

**Input Voltage Rating:**

115.0 ac pounds per hour wet single operating power rqmt

**Output Voltage Rating:**

12.0 dc volts multiple power outputs w/identical ratings

**Product Name:**

Ac to dc dual output power supply

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A39900
