Overall Length:

5.000 inches

Overall Height:

3.130 inches

Overall Width:

3.630 inches

Input Voltage Rating:

48.0 dc volts single operating power rqmt

Special Features:

Operating temperature -40deg c to +85deg c baseplate temperature; conduction through baseplate cooling; encapsulation is clear polyurethane; case enclosure is black anodized; baseplate is gold irridite; i/o terminations are trurrent-style solder terminals and polytetrafluoroethylene insulation; 6-32 mounting holes (4 places); three out put voltage ratings 5.0vdc, 16.0vdc and 16.0 vdc, three out put current ratings 7.5 amps, 0.5amps, 0.5 amps

Precious Material And Location:

Baseplate gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A39900
