Overall Length:

7.200 inches

Overall Height:

1.700 inches

Overall Width:

16.700 inches

End Application:

Nsn restricted to use by the next generation radar (nexrad) team only; rpg

Maximum Operating Altitude Rating:

7500.0 feet

Installation Design:

Rack

Output Control Location:

Rear panel multiple power outputs w/identical ratings

Output Connection Quantity:

4 multiple power outputs w/identical ratings

Output Connection Type:

Receptacle, electrical multiple power outputs w/identical ratings

Product Name:

Power administrator

Special Features:

Unit provides the out of band power admin function for the faa remote monitoring system (rms) independent of nexrad operation; this allows the rms to reset to individual wsr-88d components; supplies 115 vac porm 5 pct at 60 hz porm 3 pct; four nema 5-15 outlets; unit rated current draw of up to 15 amps per outlet; lan interface, 1 ieee 802.3 ethernet 10 baset, rj45 female interface; serial interface: 9600 bps, 8 data bits, 1 stop, no parity; shall support 4 seperate inputs with nom single phase input voltage of 100-125 vac with nom input freq of 47-63hz; rated power 10 watts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A39900
