Regulation Type:

Multiple stages

End Application:

Boat, rigid inflatable, 24 foot

Charger Type:

Electron tube

Charging Voltage In Volts:

12.0

Charging Current Rating In Amps:

20.000

Charging Regulation Method:

Controlled

Battery Type For Which Designed:

Lead-acid

Special Features:

Fully automatic, 4 step marine battery charger

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31600
