End Application:

Applied systems engineering model200s/c twt amplifier, p/n 76501-1

Product Name:

6.6kv cathode hv module, a16

Special Features:

Primary winding is driven by the m332, 1/2 bridge psrm transformer driver; voltage on the secondary winding is connected to a standard 6x multiplier circuit; power supply module is potted in rtv to stand off voltage between the primary transformer winding, referenced to ground and secondary winding which is referenced to cathode; power supply output voltage: 6.6 kilovolts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
