Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

6.0 and 12.0

Special Features:

Schumacher battery charger recharges the 2863 12-volt batter and other 12-volt or 6-volt lead-acid batteries; medium-output unit has built in protection against over-charging and a visual dc ammeter to indicate progress or completion of charge; features output selector switch for 6 amp recharge in 6 to 8 hours or 2 amp trickle charge for slow charging; easy to read impact resistant meter for constant charging status; engineering and manufacturing to exacting specifications-solid state circuitry, auto resetting circuit breaker, reverse polarity protection, energy efficient heavy duty transformer, output tapers to 50% as battery reaches full charge, heavy duty clamps for top and side mount battery posts, heavy gauge steel case w/baked enamel finish, convenient carrying handle; charger is supplied w/120 v electrical cord & op/safety instructions; 8.5 x 7 x 4; weight: 6.25 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
