Case Material:

Metal

Maximum Voltage Rating In Volts:

110.0 ac or 220.0 ac

Inclosure Type:

Encased

Terminal Location:

Back

Power Source:

Self-contained or external

Terminal Type And Quantity:

2 connector plug

Maximumlength:

8.500 inches

Maximumwidth:

4.500 inches

Maximumheight:

2.200 inches

Product Name:

Universal power/motor controller

Special Features:

4dual 20-amp ac power and motor c ontroller designed for conduit installation; four closure inputs; two 2400 w power relays; metal enclosure with black matte finish with knockouts for conduit; self-powered when used with 110/220 vac applications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
