Overall Length:

9.125 inches

Overall Height:

6.375 inches

Overall Width:

2.875 inches

Installation Design:

Rack

Product Name:

Interoperable power adapter & charger

Special Features:

An/prc-113; dc input range: 11-36vdc; ac input range: 95-270vac, 47-440hz; dc output: 24vdc at 5.5amps, 24vdc at 7 amps peak; weight: 3.75lbs without battery; operating temp: -30 degrees c to +55 degrees c; storage temp: -50 degrees c to +65 degrees c; tempest compliant; submersion: 10 ft; humidity: 95%relative; incorporates rechargeable lithium-ion battery (mrc-2590) which allows operation of transceiver independently of external power source; an internal charger allows the mrc-82 to recharge the battery while the transceiver is operating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A39900
