Dc Voltage Rating:

12.0 volts

Frequency Rating:

50.0 hertz and 60.0 hertz

End Application:

Electronic test equipment

Charging Voltage In Volts:

Between 115.0 and 230.0

Battery Type For Which Designed:

Lead-acid

Special Features:

115.0 to 230.0 volts ac input voltage; 50 to 60 hz; 20 va ; 350ma output current; serial number 9611-12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
