Overall Length:

22.250 inches

Overall Height:

5.218 inches

Overall Width:

16.770 inches

Environmental Protection:

Moisture proof and shock resistant and vibration

Operating Temperature Range:

-20.0/+50.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Special Features:

3 kva; 115/200vac, 400 hz. Ouput

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
