Overall Length:

4.500 inches

Overall Height:

0.800 inches

Overall Width:

3.250 inches

End Application:

Integrated data acquisition recorder system (idars)

Input Voltage Rating:

115.0 ac pounds per hour dry single operating power rqmt and 230.0 ac pounds per hour with retaining chain single operating power rqmt

Output Voltage Rating:

28.0 dc volts single power output

Output Wattage Rating:

75.0 watts single power output

Criticality Code Justification:

Feat

Special Features:

Electrostatic sensitive devices

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
