**End Application:**

Sb580 (9x259) whiteboard interactive 72 inch

**Product Name:**

Inavy: adapter, pwr ps/2

**Special Features:**

It is critical to maintain the ground path in the serial cable to avoid damaging the electrical components of the smart board interactive whiteboard. The keyboard power cable (ps/2) can only be used with a serial cable that is not longer than 20 feet or 6.1 meters long. A cable longer than 20 feet or 6.1 meters could reduce the pen tray voltage to less than 5v dc necessary to power the system.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
