Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

Between 22.0 volts and 28.0 volts

Frequency Rating:

60.0 hertz

End Application:

Misc elect plant general inls 2005

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

24.0

Charging Current Rating In Amps:

105.000

Special Features:

Operating temperature: -22 to 40degrees celsius; 3 stage; battery type: gel-cell, lead acid, or agm battery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
