Overall Height:

1.120 inches

Overall Width:

4.970 inches

Environmental Protection:

Electromagnetically shielded

Average Life Measurement:

Not rated

End Application:

Fadc system cg-47 9900-1002

Basic Shape Style:

Irregular

Inclosure Type:

Partially enclosed

Installation Design:

Mechanical

Circuit Construction Type:

Any acceptable

Product Name:

Converter six

Special Features:

Input-loop power; input signal -10 +10v; enhanced rfi/emi input; converter six/-10v to +10v/4-20ma/12-42dc/-rf (flb2)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
