Overall Height:

1.500 inches

Overall Width:

5.560 inches

Environmental Protection:

Electromagnetically shielded

Average Life Measurement:

Not rated

End Application:

Fadc system cg-47 9900-1002

Basic Shape Style:

Irregular

Inclosure Type:

Partially enclosed

Installation Design:

Mechanical

Circuit Construction Type:

Any acceptable

Product Name:

Converter cpt/tprg/4-20ma/24vdc/-rf

Special Features:

Input power 24vdc +/- 10 percent; input signal-programmable; output signal-0-20ma/4-20ma; enhanced rfi/emi flb2 hole mount flange dimension 4/75inch vertical/0.660inch horizontal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
