**Inclosure Material:**

Aluminum and plastic

**Overall Depth:**

3.500 inches

**Overall Height:**

2.500 inches

**Overall Width:**

5.000 inches

**Ac Voltage Rating:**

Between 115.0 volts and 130.0 volts

**Frequency Rating:**

60.0 hertz

**Regulation Type:**

Multiple stages

**End Application:**

Caterpillar 3512b diesel

**Inclosure Type:**

Cabinet

**Charging Voltage In Volts:**

12.0

**Charging Current Rating In Amps:**

1.500

**Charging Regulation Method:**

Controlled

**Battery Type For Which Designed:**

Lead-acid

**Phase:**

Single

**Special Features:**

3 modes (bulk charge, absorption, & float)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A31600
