**Regulation Type:**

Multiple stages

**Charger Type:**

Solid state semiconductor

**Charging Voltage In Volts:**

24.0

**Charging Current Rating In Amps:**

28.000

**Charging Regulation Method:**

Continuous

**Battery Type For Which Designed:**

Lead-acid

**Special Features:**

Fits virtually all lead-acid battery types, splash proof and waterproof

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A31600
