Regulation Type:

Multiple stages

Charger Type:

Solid state semiconductor

Charging Voltage In Volts:

24.0

Charging Current Rating In Amps:

28.000

Charging Regulation Method:

Continuous

Battery Type For Which Designed:

Lead-acid

Special Features:

Fits virtually all lead-acid battery types, splash proof and waterproof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31600
