Overall Length:

5.200 inches

Overall Width:

1.500 inches

Battery Quantity:

1

End Application:

Next generation radar (nexrad)

Battery Location:

Internal

Battery Recovery Time:

10.0

Special Features:

Drawing states the suggested source of supply only meets 10000 feet (3048) meters for operational altitude; however, operation at 3300 meters has been proven through analysis; nsn restricted to use by the nws depot team only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
