End Application:

7386586 (53711) switch plate assembly

Output Voltage Rating:

5.0 dc volts single power output

Product Name:

24v input maxi family dc-dc converter module

Special Features:

Product grade operating temperature is neg 40 to pos 100 degrees c; storage is neg 40 to pos 125 degrees c; pin style long modumate; baseplate is slotted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A39900
