Product Name:

Rechargeable battery/excitation module

Special Features:

Is a rechargeable battery/excitation module; provides up to six hours of operation for portable data acquisition; 28 vdc excitation output for application, such as 4 to 20 ma transducer biasing; 1.2 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
