Environmental Protection:

Weatherproof

End Application:

Satellite communications

Input Voltage Rating:

115.0 ac pounds per hour dry single operating power rqmt and 230.0 ac pounds per hour with retaining chain single operating power rqmt

Ventilation Design Type:

Ambient air

Product Name:

Outdoor power supply

Special Features:

Outdoor power supply unit for high power block upconverter (buc) models 20w c and 16w ku; no fan, designed for harsh environmental conditions; connectorized 10 foot cable (between power supply and buc) and mating connectors for the buc an ac mains power cord included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
