Overall Length:

6.726 inches

Overall Height:

1.445 inches

Overall Width:

3.973 inches

End Application:

At-cv5000 chassis

Input Voltage Rating:

100.0 ac pounds per hour dry single operating power rqmt and 240.0 ac pounds per hour with retaining chain single operating power rqmt

Input Frequency Rating:

47.0 hertz single operating power rqmt and 63.0 hertz single operating power rqmt

Product Name:

Acredundant power supply (rps)

Special Features:

75 watts maximum power; hot swappable; automatically changes from standby to active and produces all power to the system to prevent a network failure when standard power supply fails or becomes less than that required to power the system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
