End Application:

Mission support system

Installation Design:

Table

Input Voltage Rating:

120.0 ac pounds per hour dry single operating power rqmt and 230.0 ac pounds per hour with retaining chain single operating power rqmt

Input Frequency Rating:

50.0 hertz single operating power rqmt and 60.0 hertz single operating power rqmt

Special Features:

Weight-52.0 lb max; auto switching voltage; input voltage auto sensing; surge protection up to 480.0 joles; name on tech data-tripp lite
700va ups device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
