Overall Length:	
19.400 inches	
Overall Height:	
3.500 inches	
Overall Width:	
17.000 inches	
Battery Quantity:	
1	
Maximum Operatin	ng Altitude Rating:
3000.0 meters	
Input Voltage Ratir	ng:
230.0 ac volts singl	e operating power rqmt
Output Voltage Rat	ting:
230.0 ac volts singl	e power output
Input Frequency R	ating:
50.0 hertz single op	perating power rqmt and 60.0 hertz single operating power rqmt
Operating Ambien	t Tempurature Range:
+32.0/+104.0 degre	es fahrenheit
Battery Feature An	ld Type:
Iso precision class 1	0 head outside diameter
Battery Location:	
External	
Battery Recovery 1	lime:
180.0	
Product Name:	
Powerware 5125 up	S
Special Features:	
Powerware model n	umber pw 5125 1500i rm; 1500 va/1340 watts; 230 vac input/output: iec-320-10a inlet input connection; iec-320-10a
(c13) outlet receptad	cle; no electrical power module replacement; full system self-test on power up; no ups bypass; transfer time 4ms typical,
6ms max; front cont	rol panel interface: rs-232 single serial module communication slot
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:	
No	
Fiig:	
A39900
