Uninterruptible Power Supply - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6130-01-577-2158

Output Control Type:
Voltage adjustment single power output
Output Current Rating:
1500.0 ac amperes single power output
Output Control Location:
Rear panel single power output
Battery Location:
Internal
Special Features:
8 battery outlets; 1000 joules of surge suppresion; no fan; snmp, usb, and serial communication options; dual from factor
(horizontal/vertical); auto-voltage regulator; charcoal grey in color
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
