Overall Length:

9.187 inches

Overall Height:

1.560 inches

Overall Width:

6.086 inches

End Application:

B-1b aircraft

Features Provided:

Over current protector and over temperature protection and over voltage protector

Special Features:

Name on dwg-digital power supply; overload protection; weight-not to exceed 6 lb; esd; emi; operating power requirements-115/200v, 400 hz, 3 phase, lagging power factor, 100v-amps per phase; cooling-guide ribs on sides

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A39900
